

Year Six Weekly Home Learning Plan

Year Six have wisely decided that each week home learning should include mathematics, reading, writing and unit of inquiry research or tasks.

Home learning according to this guide will come home on Monday and should be returned on Friday. You can update your reading log with weekend reading on Monday nights.

Year Six have also realized the importance of improving their self management skills. Therefore, they will choose which homework to complete each night and add what we did to a graph at school the next day so that we can identify trends and problems. We should read every day and complete our reading log.

U.O.I

1. Research any questions you have by interviewing people, experimenting, viewing and or reading.
2. Complete any other UOI tasks you are given.

Blogging

Visit the blog and add a thoughtful comment at least twice each week.

Reading

1. Read **everyday** for more than fifteen minutes.
2. Carefully complete your reading log and get it signed **everyday**.
3. Complete any other reading tasks.

Spelling , Handwriting and Vocabulary

Carefully follow the instructions in this book.

Mathematics

1. Log into My Maths. The address is www.mymaths.co.uk. The school password is lislions. The user name is luanda. After logging in using the school user name and password, you will need to log in using your own user name and password.
2. **Reflect** - Think about and then explain what you learned. Try to be specific.
 - a. Brainstorm what you learned using words, symbols and or pictures.
 - b. Turn your brainstorm into a well-structured paragraph.
 - c. You should also record the meaning of any new vocabulary in your mathematics homework book.
3. Complete any extra math tasks too!
